**SUNSHINE COAST REGIONAL DISTRICT**

**BYLAW NO. 310**

A bylaw to Establish Zones and Subdivision  
Districts and Regulate the Use of Land, Buildings  
and Structures Within the Zones.

---

**PART I**

**TITLE**

---

101 This bylaw may be cited for all purposes as the "Sunshine Coast Regional District Zoning Bylaw No. 310, 1987."

---

**PART II**

**DEFINITIONS**

---

201 In this bylaw:

"adjacent upland" means land abutting and which includes as part of its boundaries, the water line of a waterbody. In the case of tidal waters, adjacent upland is measured from the natural boundary of a waterbody;

- "agriculture" (a) means cultivating, producing or harvesting crops and marketing and selling the crops harvested on the same parcel;
- (b) includes:
- (i) the storage and sale on a farm of the crops harvested on the same farm;
  - (ii) the storage on a farm of farm machinery, implements and supplies used on that farm;
  - (iii) repairs on a farm to farm machinery and implements used on the same farm;
- (c) excludes rearing livestock and all manufacturing, processing, storage and repairs not referred to in this definition;

"agricultural building" means a building used in conjunction with agriculture, including a farm operation and, where permitted under this bylaw, may contain accommodation in the form of an auxiliary dwelling unit or sleeping unit for farm workers;

“agricultural product sales” means the use of land, buildings or structures for the sale of horticultural products, dairy, eggs, meats, apicultural products, aquacultural products, creamery products, wines, ciders, beers, meads, or distilled spirits, which are produced on the same land or, where permitted under this bylaw, transported from elsewhere;

“agricultural unit” or “AU” means an equivalent live farm animal weight corresponding to 455 kg for livestock, poultry or farmed game, or any combination these equaling 455 kg;

“agricultural waste storage facility” means land, building or structure used to contain agricultural liquid or solid waste or other biosolids for a beneficial use such as composting, or disposal;

“agritourism” means temporary and seasonal activities auxiliary to a farm operation such as farm tours, hay rides and fish ponds that promote or market agricultural products grown, raised or processed on a parcel classified for assessment purposes as a farm;

"anchor" means a weighted object connected by a rope, chain or wire, which when sunk beneath the surface of water, is used for securing marine craft or mooring;

"animal shelter" means the use of land, building or structure for the temporary accommodation, provision of care and rehabilitation of animals, either commercially or not-for-profit. An animal shelter does not include a kennel;

“animal slaughter or processing” means slaughtering livestock, or cutting, eviscerating, sectioning, deboning, smoking, curing or packaging meat or meat products. Where the context requires, it also means a provincially licenced animal slaughter and processing facility;

"apartment" means a building which contains three or more dwellings;

- "aquaculture" (a) means growing or harvesting fish, shellfish, molluscs, crustaceans and marine algae;
- (b) includes the cleaning, icing and storage of fish grown on the same fish farm for period of at least 90 days and includes the cleaning, storage, shucking and packaging of shellfish, molluscs, crustaceans and marine algae; and
- (c) excludes:
- (i) the rendering, canning, smoking, cooking and processing not included in this definition, of fish, molluscs, crustaceans and marine algae;
  - (ii) the manufacture of fish feed or the mixing of fish offal with fish feed;
  - (iii) the disposal on the same site of fish offal;
  - (iv) the outdoor storage of fish offal; and
  - (v) the use of float houses or suction or dredging harvesting methods;

"Aquaculture Processing"

- (a) means the treating or preparing of fish, shellfish, molluscs, crustaceans and marine algae and any treatment or use of fish offal for the preparation of fish feed;
- (b) includes, in respect of fish, shellfish, molluscs, crustaceans and marine algae the cleaning, smoking, packaging, cooking or canning provided that the area used for cooking or canning does not exceed 250 square meters and provided that the cleaning, smoking, packaging, cooking and canning is carried out within a fully enclosed building permitted in this bylaw and includes the storage of live fish for holding or bleeding purposes and the storage of oyster shells and includes the storage and any treatment of fish offal for the production of fish feed provided that the storage and treatment of fish offal is carried out within a fully enclosed building permitted in this bylaw;
- (c) excludes any treatment or preparation not included in this definition and specifically excludes rendering".

## PART IV SUBDIVISION GENERAL PROVISIONS

---

### 401 to 403 General Area Requirements

- 401 The minimum area permissible for a new parcel shall be determined by:
- (1) the regulations pertaining to the minimum average parcel size, the minimum individual parcel size or other subdivision options applicable in the zone applied to the subject lands;
  - (2) the land use regulations pertaining to the minimum site area required under this bylaw for the declared proposed or current use of the subject lands; and
  - (3) the servicing requirement as established by separate bylaw.
- 402 (1) Where a proposed parcel is less than 3500 square meters in area it shall have a minimum of 1000 square meters of contiguous area which is not included:
- (a) within a panhandle or
  - (b) within a right-of-way, hydro transmission corridor or an area restricted by covenant where the effect of the restriction imposed by the right-of-way corridor or covenant prohibits the placement of a structure.
  - (c) within a streamside protection and enhancement area where the effect of the restriction imposed by the streamside protection and enhancement area prohibits the placement of a structure.
- (2) Where a proposed parcel is equal to or greater than 3500 square metres in area it shall have a minimum of 2000 square metres of contiguous area or two sections of 1000 square metres of contiguous area which is not included:
- (a) within a panhandle or
  - (b) within a right-of-way, hydro transmission corridor or an area restricted by covenant where the effect of the restriction imposed by the right-of-way, corridor or covenant prohibits the placement of a structure.
  - (c) within a streamside protection and enhancement area where the effect of the restriction imposed by the streamside protection and enhancement area prohibits the placement of a structure.
- (3) The requirements of Subsections 402(1) and 402(2) shall not apply to:
- (a) a parcel in the CD1 or CD2 or RM3 zone; or
  - (b) a parcel, which is used or intended for a purpose that does not generate sewage, and a restrictive covenant is registered on its title, satisfactory to the Approving Officer, which prohibits the construction of buildings and structures.
- 403 The area utilized for the purpose of calculating average parcel size shall not include land:

- (a) to be used for community sewer field and equipment or
- (b) to be dedicated for public open space, park or returned to crown or
- (c) to be dedicated as a highway.

**404 Hooked Parcels**

404 No proposed parcel shall be created which has a portion of the proposed parcel physically separated by a highway or another legal parcel except:

- (a) where each physically separated portion is of an area sufficient to satisfy the minimum and average parcel area requirements of the subdivision district applied to the subject lands; or
- (b) where the parcel is intended for a non-sewage generating use and a restrictive covenant is required, satisfactory to the Approving Officer, which prohibits the construction of buildings and structures.

**405 Minimum Parcel Size Area Exceptions**

405 (1) Minimum or average parcel size regulations required by the applicable subdivision district shall not apply:

- (a) where the parcel is intended for a non-sewage generating use and a restrictive covenant is required, satisfactory to the Approving Officer, which prohibits the construction of buildings and structures; or
- (b) where the parcel is intended for public utility use or parks; or
- (c) where a parcel has been proposed for subdivision for a public utility use creating a remainder larger than or equal to 10,000 square metres; or
- (d) where lot lines are relocated to facilitate an existing development or improve a subdivision pattern provided that:
  - (i) no additional parcels are created;
  - (ii) all parts of all parcels are contiguous; and
  - (iii) no parcel shall be enlarged to a size permitting further subdivision unless each parcel included in the boundary revision is of an area large enough to satisfy the size requirements applied to the subject lands; or
- (e) where a crown non-residential upland lease or aquatic lease is granted; or
- (f) where a portion of the parcel is physically separated from the remainder of the parcel by a highway right-of-way or another legal parcel, but shall not include areas marked "return to Crown" as indicated on the registered plan; or
- (g) where a parcel has more than one subdivision district designation and the proposed subdivision is limited to separating the two designations; or

- (h) where an existing residential building in a Residential Multiple One (RM-1) zone is converted to a strata parcel pursuant to Section 9 of the *Condominium Act* R.S.B.C. 1979, C.61 provided that:
  - (i) the number of strata parcels being created does not exceed the number of dwelling units permitted on the original parcel; and
  - (ii) each proposed strata parcel contains an existing dwelling unit within its area.
  
- (2) The minimum parcel size and the average parcel size required by the applicable subdivision district under this bylaw for a proposed subdivision are each hereby reduced by that amount required for road widening, to a maximum of 10 percent, where this bylaw or the Approving Officer requires that land be provided by the owner for highways when:
  - (a) the land is required for the purpose of widening an existing highway or right-of-way; and
  - (b) the proposed subdivision would create less than three parcels; and
  - (c) the subject property is within the C, D, E, E1, E2, F, G or I subdivision district; and
  - (d) but for this section the proposed subdivision would be prohibited because the parcels created would not attain the minimum parcel size or average parcel area herein required.
  
- (3) The minimum parcel size and the average parcel size required by the applicable subdivision district under this bylaw for a proposed subdivision are each hereby reduced by that amount required by the applicable subdivision under this bylaw, to a maximum of 20 percent, where the proposed subdivision is to provide a residence for a relative pursuant to Section 946 of the *Local Government Act* providing that no parcel is less than 2500 square metres. As noted in Sec 946 (5) of the *Local Government Act* this does not apply to Agricultural Land Reserve.
  
- (4) The combined maximum reduction under Sections 405 (2) and 405 (3) is 20 per cent.
  
- (5) The Subdivision Approval Officer will be asked to require a covenant be registered to prevent a change in the parcel's use for 5 years as set out in Section 946 (8) of the *Local Government Act*.
  
- (6) The Subdivision Approval Officer will be asked to require a covenant be registered to limit each parcel created under Sec 946 of the *LGA* to one single family dwelling.

**406 Subdivision Districts**

- 406 (1) the minimum size of a parcel created within the A subdivision district shall be 1000 square meters.
- (2) the minimum size of a parcel created within the B subdivision district shall be 1500 square meters.
- (3) the minimum size of a parcel created within the C subdivision district shall be 2000 square meters.
- (4) the maximum permitted density in the D subdivision district shall be one parcel per 3500 square meters in accordance with either Option 1 or Option 2:

**Option 1**

The absolute minimum parcel size shall be 2800 square meters with no parcel greater than 6999 square meters;

**Option 2**

An applicant may create a parcel with an area exceeding 6999 square meters provided that all other parcels in the proposed subdivision total an average of 3500 square meters with no parcel smaller than 2800 square meters.

- (5) The maximum permitted density in the E subdivision district shall be one parcel per 5000 square meters in accordance with either Option 1 or Option 2:

**Option 1**

The absolute minimum parcel size shall be 4000 square meters with no parcel greater than 9999 square meters;

**Option 2**

An applicant may create a parcel with an area exceeding 9999 square meters provided that all other parcels in the proposed subdivision total an average of 5000 square meters with no parcel smaller than 4000 square meters.

- (5A) The minimum size of a parcel created within the E2 subdivision district shall be 8000 square metres

- (6) The maximum permitted density in the F subdivision district shall be one parcel per 10,000 square meters in accordance with either Option 1 or Option 2:

**Option 1**

The absolute minimum parcel size shall be 8000 square meters with no parcel greater than 19,999 square meters;

**Option 2**

An applicant may create a parcel with an area exceeding 19,999 square meters provided that all other parcels in the proposed subdivision total an average of 10,000 square meters with no parcel smaller than 8000 square meters.

- (6A) Site Specific Exemptions  
Despite section 406(6) on Lot 3, District Lot 2309, Plan VAP10602, PID 009-362-207:
- a) The maximum permitted density shall be 3000 square metres;
  - b) The absolute minimum parcel size shall be 2000 square metres
- (7) The minimum size of a parcel created within the G subdivision district shall be 1.75 hectares.
- (8)(a) The average minimum parcel size within the G1 subdivision district shall be 1.7 hectares and the absolute minimum parcel size shall be 1 hectare.
- (8)(b) Except for subdivision remainders, a parcel created within a subdivision plan under section 406 (8) shall not be subsequently re-subdivided to further additional parcels.
- (8) The minimum size of a parcel created within the I subdivision district shall be 4 hectares.
- (9) (a) The minimum parcel size of a parcel created within the J subdivision district shall be 25 hectares;
- (b) Bonus Density.

Despite Section (9) (a) above, the minimum parcel size created within the J subdivision district may be 10 hectares if at least 15 per cent of the land in the subdivision is dedicated as park in an area deemed to be a significant site for a public parks amenity by the Regional District, pursuant to Section 904 of the Local Government Act and if it meets one or more of the following criteria:

- (a) the land improves access to waterfront lands, including the sea and watercourses;

- (b) the land links or expands parks and greenways, forming interconnected natural corridors;
  - (c) the land connects community focal features and the waterfront;
  - (d) the land includes areas for the protection of environmentally sensitive lands to be retained in a natural, undisturbed state or archaeological features to be protected;
  - (e) the land includes viewpoints and opportunities for nature appreciation.
- (10) The minimum size of a parcel created within the Z subdivision district shall be 100 hectares.
- (10A) The minimum size of a parcel created within the E1 subdivision district shall be 8000 square metres.
- (11) The minimum average size of a strata parcel created in the CD1 (Comprehensive Development) Subdivision District is 360 square meters, as delineated on Schedule 'C'. The total number of parcels designated pursuant to the *Land Title Act* as "strata" shall not exceed 31, in addition to one parcel designated as "common property", one parcel dedicated as "park" and one parcel dedicated for community sewage disposal and treatment.
- (12) For the Comprehensive Development Three district the total number of parcels designated pursuant to the *Land Title Act* as "strata" shall not exceed 52 residential dwellings, in addition to not more than one commercial area, one area designated as "marina", at least one area designated as "common property", at least one area dedicated as "park" and at least one area dedicated for sewage disposal and treatment.
- (13) (a) Not more than 15 bare land strata parcels per hectare shall be permitted in the RM3 Subdivision District under the RM3 Zone Base Density;
- (b) Not more than 20 bare land strata parcels per hectare shall be permitted in the RM3 Subdivision District under RM3 Zone Density Bonus Option.

  - (b) the maximum height of a sign shall be 3 metres.

### **Landscaping**

- (16) (1) All highways abutting commercial, industrial, or non-profit/non-commercial uses in Commercial, Industrial, Park and Assembly, and RU2 zones and all highways abutting non-profit/non-commercial uses and businesses other than home occupations and bed and breakfasts in the RU1, RU2 and AG zones are designated highways for the purpose of requiring landscaping to separate the commercial or industrial use from the highway.

- (2) Landscaping of all land in a setback area abutting a highway shall be provided and maintained to mask or separate commercial, industrial, or non-profit/non-commercial uses on a parcel from the highway.

### **503 Height of Buildings and Structures**

- 503 (1) Except as otherwise provided in this bylaw, the height of all buildings and structures shall not exceed 11 meters.
- (2) Notwithstanding the definition of height, where fill is necessary to raise the elevation as required by the flood control provisions of this bylaw, the height of a building or structure shall be measured from the minimum permitted elevation of the top of the fill;
- (3) Church spires, chimneys, flag poles, masts, aerials, fire hall hose drying towers, water tanks, domes, public monuments, observation towers, transmission towers, elevators and ventilation machinery and farm buildings including silos, shall not be subject to the height requirements of this bylaw provided that such structures occupy no more than 10% of the surface of the parcel, or if situated on a building, not more than 15% of the roof area of the principal building.
- (4) The maximum height of all fences shall not exceed 2 meters except where:
  - (a) permitted in other sections of this bylaw;
  - (b) the fence abuts a highway and the height of the fence does not exceed 2 meters above the centre line of the highway; or
  - (c) it is a structure.
- (5) On parcels less than 750 square metres in the R1, R2, CR1, RU1, RU2 and AG zones the maximum height of a single family dwelling shall not exceed 8.5 metres.
- (6) Notwithstanding subsection (5), where the average slope of a parcel exceeds 20 percent as measured from BC Ministry of Environment 1:5,000 scale planimetric maps or as determined from field observation, the maximum height may be increased to 11 metres.
- (7) The maximum height of a building which is separate from the principal residence and which contains an auxiliary dwelling unit shall not exceed 4.5 metres.

### **504 Floor Area of Buildings**

- 504 (1) On a parcel less than 1500 square metres in the R1, R2, CR1, RU1, RU2 and AG zones, the maximum total floor area of all buildings on a parcel shall be the parcel area multiplied by 0.30;
- (2) In addition to the floor area in (1) up to 45 square metres is allowed for

enclosed parking.

### **505 Principal Buildings and Siting of Buildings**

- 505 (1) Except as otherwise provided in this bylaw no structure shall be located on a parcel in the setback required under this bylaw between a structure and the specified parcel line.
- (2) The placement or occupation of houseboats or floating homes on tidal or non tidal water is prohibited.

### **506 Siting Exceptions**

- 506 (1) Where chimneys, bay windows or ornamental features project beyond the face of a building, the minimum distance to an abutting parcel line as permitted elsewhere in this bylaw may be reduced by not more than 0.6 meters provided that such reduction shall apply only to the projected feature.
- (2) Where steps, eaves, sunlight controls, canopies, balconies, or open porches project beyond the face of a building:
- (a) the minimum permitted distance to an abutting front or rear parcel line or side parcel line abutting a highway may be reduced by not more than two meters; and
  - (b) the minimum permitted distance to an abutting side parcel line not abutting a highway may be reduced by not more than 50% of such minimum distance to a maximum reduction of two meters provided that such reduction shall apply only to the projected feature.

**Note:** Siting exceptions are subject to Section 9.10.14 & 9.10.15 of the B.C. Building Code, 2006.

### **507 Siting and Elevation of Buildings Adjacent to Waterbodies and Watercourses**

- 507 (1) "Notwithstanding any other provisions of this bylaw, no building or any part thereof, except a boathouse located within an inter-tidal zone or within the I9 (Independent Power Project) zone, shall be constructed, reconstructed, moved, located or extended:"
- (a) within seven point five (7.5) metres of the *natural boundary* of the ocean, a lake, swamp or pond with the exception of the *natural boundary* of the ocean within Electoral Area D;
  - (b) within thirty (30) meters of the natural boundary of Chapman Creek, Tzoonie River, Clowhom River, Rainy River, McNab Creek, McNair Creek, Dakota Creek and Chickwat Creek;
  - (c) within twenty (20) meters of the natural boundary of Roberts Creek below Lower Road;
  - (d) within fifteen (15) meters of the top of the bank of Gibson Creek;

- (e) within fifteen (15) meters of the natural boundary of Chaster Creek, nor between the natural boundary and a line running parallel to and 15 meters back from the top of the bank of Chaster Creek; or
  - (f) within fifteen (15) meters of the natural boundary of all other watercourses, including Roberts Creek above Lower Road.
- (2) Within Electoral Area D, no *dwelling*s shall be constructed reconstructed, moved, extended or located less than fifteen (15) metres from the *natural boundary* of the ocean with the following exceptions:
- (a) For *parcels* with an *existing waterfront dwelling* as of May 13, 2010 located between 7.5 and 15 metres of the *natural boundary*, any addition thereto or any *dwelling* constructed after May 13, 2010 shall be sited at least at the *average waterfront siting* of the *existing waterfront dwelling*.
  - (b) For *parcels* with an *existing waterfront dwelling* as of May 13, 2010 located less than 7.5 metres from the *natural boundary*, any addition thereto or any *dwelling* constructed after May 13, 2010 shall be sited at least 7.5 metres from the *natural boundary*.
  - (c) Any *dwelling* constructed on a parcel after May 13, 2010 shall not be required to be sited more than 3.0 metres inland from the mean of the *average waterfront siting(s)* for the *existing waterfront dwelling(s)* within 30 metres on the two closest adjacent *parcels*, provided that the *dwelling* must be *sited* at least 7.5 metres from the *natural boundary* in all cases.
- (3) As an exception to 507 (2), within Electoral Area D, any unenclosed sundeck or balcony attached to any building shall be sited at least 7.5 metres from the *natural boundary* of the ocean.
- (4) Despite Section 507 (1), for the purpose of habitat protection pursuant to the *Riparian Areas Regulation*, the following provisions will also apply for those parts of Electoral Areas B, D, E and F located outside of the area covered by official community plans: no building or any part thereof, except a boathouse or wharf located solely on a stream or within the I9 (Independent Power Project) zone, shall be constructed, moved, located or extended within:
- (a) for a stream, the 30 meter strip on both sides of the stream, measured from the high water mark,
  - (b) for a ravine less than 60 meters wide, a strip on both sides of the stream measured from the high water mark to a point that is 30 meters beyond the top of the ravine bank; and
  - (c) for a ravine 60 meters wide or greater, a strip on both sides of the stream measured from the high water mark to a point that is 10 meters beyond the top of the ravine bank.
- (5) Notwithstanding any other provisions of this bylaw, the underside of the floor system of any area used for habitation, business or storage of goods

damageable by floodwaters, or in the case of a mobile home the top of land fill elevation or top of pad on which it is located or in the case of a mobile home constructed on a poured-in-place concrete perimeter footing the top of the footing wall, shall not be:

- (a) lower than zero point six (0.6) meters above the two hundred year flood level according to the records of the Province or lower than one point five (1.5) metres, with the exception of two (2.0) metres within Electoral Area D, above the natural boundary of the ocean, a lake, swamp or pond, whichever is the more restrictive;
- (b) nor lower than three (3) meters above the natural boundary of Chapman Creek, Tzoonie River, Clowhom River, Rainy River, McNab Creek, McNair Creek, Dakota Creek and Chickwat Creek;
- (c) nor lower than one point five (1.5) meters above the natural boundary of any other watercourse.

## **508 Storage**

508 Other than as permitted in the I5 zone, no parcel shall be used:

- (a) for the storage of junk or for the wrecking of a motor vehicle; nor
- (b) for the storage of a motor vehicle which has been without a license under the *Motor Vehicle Act* for a period of more than one year, is not housed in a garage or carport, and which is intended to be self-propelled but is not capable of locomotion under its own power.

## **509 Off Street Parking and Loading Spaces**

- 509 (1) The number of off-street parking spaces for motor vehicles is calculated according to Table II in which Column I classifies the building, Column II sets out the number of required off-street parking spaces and Column III sets out the required loading spaces that are to be provided for in each class of building in Column I.
- (2) Where the number of required parking spaces in Column II is expressed as a calculated figure or as a minimum number of spaces, the number of spaces provided shall be the greater of the two requirements.
- (3) Not including aisle access space, every required off-street parking space shall be of a minimum area of 16 square meters and shall at all times have vehicular access to a highway.
- (4) Every required off-street parking space shall be of a minimum length of 5.8 meters.
- (5) Required off-street parking areas shall be located on the same parcel as the use being served except where otherwise provided in this bylaw.
