SCRD Emergency Operations Centre Update #8

Sechelt, BC – November 16, 2021— The SCRД has activated an Emergency Operations Centre (EOC) to assist in coordinating resources as we deal with a number of water / flood related issues in the Region.

This is update #8 at 11:15 am on Tuesday, November 16

Water

A boil water advisory is still in effect for a number of residents in Halfmoon Bay, Gibsons, Elphinstone and West Howe Sound. Maps for both of these areas can be found at the links below.

Halfmoon Bay – Welcome Woods Area - [MAP](#)
Gibsons, Elphinstone, West Howe Sound - [MAP](#)

In direct response to inquiries from the public seeking clarification on boil water advisories, we are pleased to provide this new feature. Residents can now search for your address [at this link](#) and you will be advised if you are under a boil water advisory.

Crews continue to work to restore service to a number of these residences and also residences located on Reed Road between Henry Road and Payne Road.

Updates on the lifting of boil water advisories and service resumption will be provided when available. The process involves regular water testing and liaising with Vancouver Coastal Health and it is common for such advisories to remain in place for a few days. SCRД crews have been working long hours in very difficult conditions to restore service and your patience is appreciated at this time.

Transit

Due to road damage from yesterday's flooding there are some changes to Transit service today.

Route #1 Langdale Ferry / 1 Sechelt

Due to the closure of Lower Road;

- Southbound busses will travel down Flume Rd back up to the Highway at Roberts Creek Rd.
- Northbound busses will take Roberts Creek Rd and come back up Marlene Rd.

Route #4 Halfmoon Bay

- Due to the flood damage the Route #4 Halfmoon Bay is cancelled until further notice. Route 4 Halfmoon Bay will travel up Norwest Rd and down Mason Rd to the bottom and turn left back to Sechelt.

Roads

The SCRCD is working to obtain information from the Ministry of Transportation and Infrastructure on road closures and the potential length of time these roads will be closed in the Region. Once this information has been made available the SCRCD will provide an update.

Stay tuned to www.scrd.ca/alerts and the [SCRCD on Facebook](#) for updates.
