## Notice to the Public – Water Main Replacement Work

The Sunshine Coast Regional District (SCRD) has identified a number of water mains in the Chaster Road area that need immediate replacement due to the poor condition of the existing mains. This notice is to provide information on the locations and dates of the work being done.

### Locations

Water mains on Chaster, Pratt and Hough Roads will be replaced. More specifically, on Chaster Road from Frank West Hall to Pratt Road; on Pratt Road from Chaster Road to Malaview Road; and on Hough Road going north from Chaster Road on the undeveloped right of way to loop the system through Malaview Road.

### Dates

The work will take place during normal working hours between 7:00 a.m. and 7:00 p.m., Monday to Friday and will involve the following;

- Ground Breaking and Pipe Laying Work - 20<sup>th</sup> September, 2021 to 22<sup>nd</sup> October, 2021
- Temporary Paving and Restoration – November 2021

Full restoration of road surfaces is expected by 1<sup>st</sup> April, 2022.

We apologize in advance for any inconvenience this vital work may cause. Residents should expect traffic disruptions in the area between September 20 and November 1. Residents are asked to please keep speeds to 30 km/h in the construction zone for worker safety and to drive with caution due to dust and loose stone that may be present.

### Water Outages

Intermittent water outages are expected in the areas illustrated in red in Figure 2.

Households on Chaster Road, Pratt Road and Malaview Road (as per Figure 3) are to expect longer water outage periods while the water main replacement is carried out.

Interruptions to water service should be expected to begin by mid-October. SCRD staff will provide notice to effected residents in advance of any planned shut-offs during construction.
