Committee Chair
TO: SCRD Board – May 26, 2022

AUTHOR: Allen Whittleton, Chief Building Official

SUBJECT: PLACEMENT OF NOTICE ON TITLE

RECOMMENDATION(S)

THAT the report titled Placement of Notice on Title be received for information;

AND THAT the Corporate Officer be authorized to file a Notice at the Land Title Office stating that a resolution has been made by the Sunshine Coast Regional District Board under Section 57 of the Community Charter against the land title of Lot 11, Block 16, District Lot 1595, Plan VAP10378, Folio: 746.04810.000, PID 009-445-650.

BACKGROUND

Section 57(1) of the Community Charter allows a Building Official to recommend that a notice be registered against the land title where a Building Official observes a condition with respect to land, building or other structure that is considered to contravene a Regional District Bylaw, Provincial regulation or any other enactment that relates to the construction or safety of buildings or other structures.

This report lists a property where a building or other structure is considered to be unsafe or is unlikely to be usable for its expected purpose, or where something was constructed that required a permit or inspections under a bylaw, regulation or enactment which have not been obtained or completed to the satisfaction of the Building Division.

Letters have been sent advising the registered owners that certain specific conditions exist regarding their property and requesting that building permits be obtained and completed in an effort to achieve voluntary compliance.

The Community Charter requires that the Regional District Board must pass a resolution to place a Notice on Title. The Corporate Officer has notified the registered owners of the property listed in this report by one or more of the following methods: registered letter, hand delivery, email or regular mail. The owners have been advised of the date and time of the Board meeting at which the decision to register a Notice on Title will be made, and that at this meeting they will be afforded the opportunity to speak to the issues being registered.
DISCUSSION

The listed property is non-compliant due to one or more of the following:

- permits applied for / or issued but no inspections scheduled
- construction has taken place without a valid permit.

1. 251 Gordon Road, Lot 11, Block 16, District Lot 1595, Plan VAP10378, NWD
   Folio: 746.04810.000, PID 009-445-650
   Electoral Area F

A building permit was issued on January 15, 2015 for the construction of a single-family dwelling. Multiple inspections were completed for this project. The permit was renewed twice but has expired without final inspection approval. The SCRD Building Division is not aware of any safety issues at this time and recommends Notice be placed on Title.

STRATEGIC PLAN AND RELATED POLICIES

N/A

CONCLUSION

Section 57(1) of the Community Charter allows for a notice to be registered against the land title where a Building Official considers a condition with respect to land, building or other structure contravenes a Regional District Bylaw, Provincial regulation or any other enactment. Information on record with the Building Division that is summarized above show that this property is in contravention. Staff recommend that Notice is registered on Title at the Land Title Office against the above noted property.

2022-May-26 Notice on Title Staff Report (1)
Dear SCRD Board

The month of May is the virtual Food Bank Drive. Covid has been great for some businesses but for a large part of our society has created hardship

All the Best

Deacon Kenan MacKenzie
Dear SCRD Board

No one should go hungry!

The Sunshine Coast is blessed with four food banks – serving communities from Egmont to Langdale. Our goal is to provide healthy food choices to anyone who comes, regardless of their situation. We know we are addressing the symptom, not the cause of food insecurity, and we are happy that we can help those who need nourishing food and can’t afford it.

There are a number of food security issues on the coast. All of our food bank recipients choose between food and rent, or food and medicine, or food and clothing. Some of our recipients have no or little income and no housing and are living rough. Others are working poor, showing up in their work uniform over their lunch hour so they can take food home at the end of the day. There are a variety of reasons for folks needing to use the food bank, but they all relate back to food insecurity.

It's important for our communities to be able to continue to offer food to those that need it. All four of our Coast food banks – Pender Harbour, Sechelt, St. Bart’s, Gibsons and the Salvation Army, Gibsons work together with businesses and organizations on the Coast to sustain this effort. An Endowment Fund has been created under the auspices of the Sunshine Coast Foundation in order to increase involvement with the greater community.

StatsCan tells us that the average BC household spends $207 per person per month on food. A family of four will spend around $800. Given that this number is over two years old, it’s safe to say that the food we can give folks is valuable in more ways than one. Average stats at one of our food banks look like this: 59 people came and picked up food for 103 people. Fifteen volunteers worked about 40 hours from set up to take down. Of course, not all the food those households needed was provided. Even at half that bill, the StatsCan number extrapolates to about $10,000.00 worth of food that day.

That’s why this letter is before you. We need cash donations. And we are asking you to help us. Cash donations allow us to buy food that doesn’t usually get donated. There is always a need, always a food shelf in our supply room that is empty each month - and always families to feed. Facilities and equipment also need to be maintained.

We hope that you can find a spot in your budget to include a donation to the Sunshine Coast Food Bank Drive through the website at [www.coastwidefoodbankdrive.ca](http://www.coastwidefoodbankdrive.ca). Your donation benefits all the coast food banks through The Sunshine Coast Foundation and their endowment program.

Regards,

Deacon Kenan MacKenzie
To Whom it May Concern,

My name is Jenny and I am the Curator/Manager at the Nicholas Sonntag Marine Education Centre in Gibsons.

I am hoping that you will be able to assist, with a big project that has just recently come up again, with a Letter of Support from the SCRD.

We have the opportunity to apply for the Clean Coast Clean Waters Initiative Grant again this year, in partnership with the Ocean Legacy Foundation (OLF) and other not-for-profit/charitable conservation organizations. The grant would allow us to clean up marine debris from all along the Sunshine Coast, while diverting the majority of the waste away from the landfill. We took part in this initiative last year and were successful in clearing nearly 2 tonnes of marine debris from along the Sunshine Coast, and diverting nearly 75% of that away from landfill to be recycled or repurposed.

If you need any further information, please do not hesitate to contact me. I look forward to hearing from you.

Kind Regards,
Jenny

(c) As soon as the test of the automated vote counting system is completed, the Chief Election Officer must secure the memory packs and ensure that they will remain secured until the election or other voting is complete.

19. **AUTOMATED VOTING PROCEDURES**

(a) The presiding election official for each voting place shall offer, and if requested, ensure that a demonstration of how to vote using a vote counting unit is provided to an elector as soon as such elector enters the voting place and before a ballot is issued.

(b) Upon completion of the voting demonstration, if any, the elector shall proceed as instructed, to the election official responsible for issuing ballots, who, upon fulfilment of the requirements of the Local Government Act, shall then provide a ballot to the elector, a secrecy sleeve if requested by the elector, the ballot marking instrument, and any further instructions the elector requests.

(c) Upon receiving a ballot the elector shall immediately proceed to a voting compartment to vote.

(d) The elector may vote only by making an acceptable mark on the ballot:
   (i) beside the name of each candidate of choice, up to the maximum number of candidates to be elected for each of the offices to be filled; and
   (ii) beside either ‘yes’ or ‘no’ in the case of each bylaw or other matter on which the assent or opinion of the electors is sought.
(e) Once the elector has finished marking the ballot, the elector must either place the ballot into the secrecy sleeve, if one has been requested, or turn the ballot upside down and proceed to the vote counting unit, and under the supervision of the election official in attendance, insert the ballot directly from the secrecy sleeve, if applicable, into the vote counting unit without the acceptable marks on the ballot being exposed.

(f) If, before inserting the ballot into the vote counting unit, an elector determines that a mistake has been made when marking the ballot, or if the ballot is returned by the vote counting unit, the elector may return to the voting compartment to correct the ballot or request a replacement ballot by informing the election official in attendance.

(g) Upon being informed of the replacement ballot request, the presiding election official shall issue a replacement ballot to the elector and mark the returned ballot "spoiled" and shall retain all such spoiled ballots separately from all other ballots, and they shall not be counted.

(h) If the elector declines the opportunity to obtain a replacement ballot and has not damaged the ballot to the extent that it cannot be reinserted into the vote counting unit, the election official shall, using the ballot return override procedure, reinsert the returned ballot into the vote counting unit to count any acceptable marks which have been made correctly.

(i) Any ballot counted by the vote counting unit is valid and any acceptable marks contained on such ballots will be counted, subject to any determination made under a judicial recount.

(j) Once the ballot has been inserted into the vote counting unit and the unit indicates that the ballot has been accepted, the elector must immediately leave the voting place.

(k) During any period that a vote counting unit is not functioning, the election official supervising the unit shall insert all ballots delivered by the electors during this time, into the storage ballot compartment, on the understanding that if the vote counting unit:

(i) becomes operational, or

(ii) is replaced with another vote counting unit, the ballots in the storage ballot compartment shall, as soon as reasonably possible, be removed by an election official and, under the supervision of the presiding election official, shall be inserted into the vote counting unit to be counted.

(l) Any ballots which were temporarily stored in the storage ballot compartment during a period when the vote counting unit was not functioning, which are returned by the vote counting unit when being counted shall, through the use of the ballot return override procedure and under the supervision of the presiding election official, be reinserted into the vote counting unit to ensure that any acceptable marks are counted.

20. **ADVANCE VOTING OPPORTUNITY PROCEDURES**

(b) The presiding election official appointed to attend at each additional general or advance voting opportunity shall proceed in accordance with Part 19 of this Bylaw as far as applicable except that the voted ballots shall be deposited into the portable ballot box supplied by the presiding election official if those are being used.

(c) The presiding election official at an additional general or advance voting opportunity shall ensure that the portable ballot box is sealed and secured when not in use and, at the close of voting of any additional general or advance voting opportunity, the presiding election official shall seal the portable ballot box and return it together with all other election materials to the custody of the Chief Election Officer.
