New Water Infrastructure Being Put to the Test

Sechelt, BC – April 6, 2021 – New water infrastructure on Reed Road in Gibsons will be put to the test next week to confirm whether the Town of Gibsons can supply water to the Sunshine Coast Regional District's Zone 3 in an emergency situation.

If successful, this collaborative effort between the Town of Gibsons and the SCRD would ensure that the SCRD's Zone 3, located between Reed Road and Gibsons Way, would have water in situations such as a large fire or major water main break.

Staff will be conducting the water flow tests on Thursday, April 15. The testing is not expected to have any impact on neighbouring residents.
