

## News Release

### Changes to SCRD Thursday Curbside Collection Zone

Sechelt, BC – December 22, 2021 – The Sunshine Coast Regional District's (SCRD) contracted waste disposal company, Waste Management has informed the SCRD that immediate service schedule changes are being put in place that will affect some residents.

This is unfortunately contrary to earlier information shared by Waste Management that any service schedule changes related to them recently retaining Salish Soils as the subcontractor for the SCRD curbside collection services would not be implemented until sometime in February 2022.

Waste Management has indicated that this change is required to improve long-term service delivery.

#### Changes

This change will affect some residents who usually receive service on Thursdays in Lower Roberts Creek and Lower Elphinstone. These residents will now be receiving service on Fridays instead. Both green bin and garbage collection for this new zone will move to Friday.

SCRD staff have updated the curbside collection zone map, interactive map and SCRD Collects App with new information. These can be found [by clicking here](#).

A list of all affected residences whose service will be moving from Thursday to Friday can be found [here](#).

Due to the lack of notice provided by Waste Management with regard to this change, the SCRD is working to get as much information to the community as possible before this change takes effect. We are asking you share this information with neighbours to ensure they are aware of these changes being put in place by Waste Management.

If you have questions regarding a missed collection, please contact Salish Soils at 604-885-5383 or [office@salishsoils.com](mailto:office@salishsoils.com). All other SCRD curbside collection service questions can continue to be directed to the SCRD at [infrastructure@scrd.ca](mailto:infrastructure@scrd.ca) or 604-885-6806.
