New Guidelines for Recreation – Update #1

Sechelt, BC – May 27, 2021 — Earlier this week, the B.C. Government announced a four-step plan for BC's Restart through the ongoing COVID-19 pandemic.

As each step of this plan is implemented, the Sunshine Coast Regional District (SCRD) will communicate changes to our community.

Today, our focus is on recreation. Step 1 of BC's restart plan which [can be viewed here](#), has allowed for the return of low intensity group fitness classes offered at SCRD facilities including Yoga and core classes.

Please note **that masks are still mandatory** at all times in all SCRD recreation facilities.

You can register for these activities at www.scrd.ca/myrecreation

"I want to assure our community that the SCRD's focus continues to be on reopening our facilities and classes safely, in a way that allows our staff to sustain these services long-term," says Graeme Donn, Manager of Recreation Services. "Our staff are working to respond to these updated health orders and will continue to follow along as BC's Restart Plan continues to roll out through the summer."
