Community Appreciation Evening at the Sechelt Aquatic Centre

Sechelt, BC – November 3, 2021 – Work on the vital fire suppression system at the Sechelt Aquatic Centre has been completed ahead of schedule and recreation staff are preparing to fully reopen the facility on Saturday, November 6.

The Sunshine Coast Regional District (SCRD) understands that it has been a frustrating time for users of the Sechelt Aquatic Centre and would like to show appreciation for the patience and understanding of our community while the facility has been closed.

So, this Friday, November 5, float in the lazy river, swim some laps or workout in the fitness centre for free! Access to the entire facility will be free for our Community Appreciation Evening from 7 p.m. to 9 p.m.

Please note that there is a capacity limit of 115 people for the swimming pools and 50 people for the fitness centre. SCRD staff will be working to ensure that as many people as possible who attend the Community Appreciation Evening get the opportunity to take part.

“The SCRD understands how important the Sechelt Aquatic Centre is to our community and staff have been working hard to limit the length of closures in recent months,” says Shelley Gagnon, SCRD General Manager of Community Services. “We look forward to welcoming the community back this weekend and to the resumption of scheduled activities at the facility.”

If you are planning to attend the Community Appreciation Evening, please check out www.scrd.ca/recreation-restart for the latest provincial health information and vaccination requirements for SCRD recreation facilities.
