

## News Release

### Sechelt Aquatic Centre – Main Pool Closed until Wednesday, April 20

Sechelt, BC—April 14, 2022— Since Monday, SCRD staff have been working to fix a pump for the main pool at the Sechelt Aquatic Centre. Unfortunately, it has taken longer than expected to locate the necessary parts for the pump repairs so the main pool will now need to be closed until Wednesday, April 20.

SCRD staff and a hired contractor have done all they can to try and limit the length of this closure however replacement parts are not due to arrive on the Sunshine Coast until early next week. The main pool cannot reopen until this vital work has been completed.

The leisure pool, sauna, waterslide, hot tub and weight room remain open as usual.

A further update on the status of this closure will be provided on Tuesday, April 19. SCRD staff will be reaching out directly to user groups and any registered programs that are affected by this closure. The SCRD appreciates the understanding of the community at this time.
