

News Release

Winter Storm – Transit Schedules & Waste Disposal / Curbside collection Updates

Sechelt, BC – January 5, 2022 – Changes will be put in place for Transit services tonight and tomorrow morning on the Sunshine Coast due to an expected Winter storm and significant snowfall.

In addition, curbside waste collection and access to waste disposal facilities may also be affected.

Further information is below.

Transit Operations

Bus schedules will change as follows:

Wednesday, January 5 – Times of **last bus** service

#90 Sechelt Express – 9:02 a.m.

The first bus on Route #4 Halfmoon Bay is scheduled for 10:09 a.m.

Please note that all of the schedules outlined above are subject to change based on weather conditions. The latest updates on Transit services will be provided at www.scrd.ca and via the SCRD's Facebook Page.

Curbside Collection & Waste Disposal Facility Operations

Opening hours

The forecasted snow amounts this evening and overnight could impact the access roads to both the Pender Harbour Transfer Station and the Sechelt Landfill tomorrow Thursday, January 6. Please check www.scrd.ca or the SCR D's Facebook Page before visiting any of these sites tomorrow morning for any amended opening hours.

Curbside Collection Services

Winter road conditions causing slippery or icy roads may result in some residences not receiving curbside collection. Recovery notifications will be posted on www.scrd.ca, the SCR D's Facebook page and alerts will be sent on the SCR D Collects App. If garbage is missed until your next collection, you can put out two cans instead of one can. For enquiries, please contact Salish Soils (SCR D sub-contractor) at office@salishsoils.com or leave a message at 604-885-5383 and staff will call you back.
