Expect Traffic Disruptions on Chaster Road

Sechelt, BC—May 25, 2022—Expect traffic disruptions on Chaster Road this week, as a contractor hired by the Sunshine Coast Regional District (SCRD) is paving a section of the road that was disturbed by a watermain replacement in November.

The work is due to begin today, May 25 and, weather permitting should be completed by May 31.

The paving is due to take place from 7 a.m. to 7 p.m. on these dates and will primarily be focused on Chaster Road at the following locations:

- Between Pratt Road & Fire Hall No 2 at 1224 Chaster Rd
- On Pratt Road between Chaster Road & Malaview Road
- Chaster Road and Pratt Road Intersections.

Traffic control will be in place for the duration of the work and there will be some driveway and temporary lane closures while the paving is being completed.

The SCR D is working with our contractor to have this paving completed as quickly as possible to minimize disruption in the area.
