

Competition #V1431

Capital Projects Coordinator

Full-time

External Closing Date: Thursday, October 28, 2021 at 4:30pm

Under the general direction of the Manager, Capital Projects, the Capital Projects Coordinator performs a range of engineering designs, assists with project management, utility design work and activities, and performs and oversees the design, bidding, and construction oversight of capital and operational projects, and maintenance programs related to critical community infrastructure including water treatment and distribution, waste water collection and treatment, and capital improvements to marine docks.

This is a bargaining unit position with a wage rate of \$40.79 per hour and includes a full benefit package upon the successful completion of a four-month probationary period with the SCRD. The Sunshine Coast lifestyle alone might be attractive enough, but we'll also provide the successful candidate with a relocation allowance. The SCRD also allows for flexible work scheduling, between the office and working remotely, as mutually agreed by the divisional Supervisor/Manager. There may also be an opportunity to provide some education and training to the successful incumbent.

Applications for this position must include a current resume, a cover letter quoting the competition number and verification of education/certification submitted via [email](#) to Human Resources by the closing date and time shown above. Qualification requirements including formal education, training, experience and other skills and knowledge can be found in the job description available with this posting.

We thank all candidates for their interest; however only those selected for interviews will be contacted.
