## INTRODUCTION

### 1.1 Purpose

The Regional District is seeking a qualified service provider to initiate and implement the Pender Harbour Food Waste Collection and Processing Pilot Project, a new service that the Regional District has not previously offered in the area. Implementation includes providing container, hauling and processing services for the Regional District's pending food waste recycling program located within Regional District's Electoral Area A (Pender Harbour/Egmont). The food waste drop off location must be within Area A, and can be at the Pender Harbour Transfer Station (PHTS). Food Waste needs to be processed off site, and the site location needs to be within a reasonable distance from the Pender Harbour Transfer Station (PHTS). It is strongly preferred that such location is located in Area A, however the Regional District might consider alternative processing site locations within a reasonable distance from Area A.

## 2. SITUATION/OVERVIEW

### 2.1 Background

In January 2018, the Regional District's Board adopted the [Regional Organics Diversion Strategy](#). The goal of the Strategy is to develop a financially sustainable road map that will lead to a robust, region-wide organics diversion program. The strategy is in support of the Regional District's [Solid Waste Management Plan](#)'s targets, and is included in the [Board's 2019-2023 Strategic Plan](#). As of January 1, 2022 the Regional District has banned the disposal of food waste, food soiled paper, and paper from the landfill. Enforcement of this ban will begin on October 1, 2022.

One of the Diversion Strategy's initiatives is to support landfill disposal regulations for food waste through the implementation of food waste drop-offs. In October 2020, the Regional District implemented curbside food waste collection for residential properties in Areas B (Halfmoon Bay), D (Roberts Creek), E (Elphinstone) and F (West Howe Sound). Area A is outside of the Regional District's current curbside collection service area, and as such, the Regional District is seeking to provide a food waste drop-off and processing program for Area A.

#### 2.1.1 Tonnage Estimates

The Regional District is only able to provide an estimate of food waste tonnage. There is no equivalent service or program currently funded by the Regional District to develop a more accurate estimate from. There is no guarantee regarding the actual quantities to be received during the term of the Contract. The estimated annual food waste tonnage is between 100 tonnes and 300 tonnes.

Proponents should be aware of anticipated seasonal increases to food waste tonnages during summer months. The proposed service level needs to incorporate seasonal fluctuations.

## 2.2 Project Objectives

The main objective of the Pender Harbour Food Waste Collection and Processing Pilot is to develop and maintain a user-friendly food waste drop-off and processing service for Electoral Area A residents and small businesses. This program will be open to all residents and small businesses with individual self-haul loads of up to 50L. It is strongly preferred that the processing service location is located in Area A, however the Regional District might consider alternative processing site locations within a reasonable distance from Area A.

The service will be operated in a safe and efficient manner, and be user friendly for the public to encourage high participation.

### 2.2.1 Site Options

Two site options for the drop-off location will be considered for this Pilot Project:

#### **Option A: Pender Harbour Transfer Station (PHTS) utilized for food waste drop off. Food waste hauled to Contractor's Processing Site.**

In Option A, the Contractor will provide and maintain bins for food waste drop off at the Pender Harbour Transfer Station (PHTS). The volume restriction for drop off by residents and small businesses will be 50 litres per load. The Contractor will haul collected materials to the Contractor's processing site, and process the materials in such a manner that complies with BC regulations for processing food waste. Within Option A, the Regional District would determine and collect tipping fees in a manner that encourages maximum participation.

#### **Option B: Contractor provide and maintain food waste drop off site within Electoral Area A (not the Pender Harbour Transfer Station).**

In Option B, the Contractor will provide and maintain a food-waste drop-off site within Electoral Area A that is not the Pender Harbour Transfer Station. Food waste loads of up to 50 litres per load from residents and small businesses would be accepted at the site through this program. The contractor would recycle food waste on site in such a manner that complies with BC regulations for processing food waste. In Option B, the Contractor would be responsible for proposing a tipping fee that encourages maximum participation, and for collecting that fee.

Processing of food waste cannot occur at the PHTS, but the site location is strongly preferred to be located in Area A. However the Regional District might consider alternative processing site locations within a reasonable distance from Area A.

## 2.3 Scope

### 2.3.1 Contractor Responsibilities

The Contractor's responsibilities will include the following:

- Provide all necessary materials, supervision, labour, and equipment to undertake the full scope of work as described in the Proposal for the duration of the contract.

- Process food waste in a manner that is compliant with the relevant BC Regulations, and provide reporting on the tonnages processed and fuel and greenhouse gas (GHG) reporting on the hauling and processing. A sample Fuel and GHG Report is attached in Appendix 2.
- Follow reporting requirements as is required by the MOECCS that is relevant to processing methodologies proposed.

  - Empty or remove container(s) at PHTS and replace with empty container(s) at a minimum of once per week, and as often as required to minimize nuisance associated with rodents and odour.
  - Transport food waste from PHTS to processing site at a minimum of once per week. Ensure loads are covered and secured to prevent spillage of materials during transport.
  - Provide response to additional requests from the Regional District, regarding maintenance and container pick-up, within 24 hours with removal or maintenance to be completed within two (2) working days during the then-current site operating hours.
  - Cooperate with the Regional District's PHTS site operator(s) and the Regional District to ensure high level of service.
  - Conduct work at all times in a manner that does not interfere with or impede existing operations at the PHTS.
- If Option B (PHTS is not used as the drop-off site), the Contractor's Responsibilities also include the following:
  - Ensure container(s) are serviceable during all times the drop off site is open to the public. The drop-off site hours of operation should coincide with or exceed the hours of operation of the PHTS. Current operating hours attached in Appendix 1.
  - Provide and maintain a schedule for monitoring bins and ensuring a clean, tidy and safe site. It is anticipated that monitoring and maintenance of the site may be required multiple times per week.
  - Empty or remove container(s) and replace with empty container(s) at a minimum of once per week and as often as required to minimize nuisance associated with rodents and odour.

- Provide a level of customer service at the drop off site that allows for an easy, safe and user-friendly experience.
- Provide Informational signage on-site that is satisfactory to the Regional District; and
- Collect and maintain all required documentation.

### **2.3.2 Regional District Responsibilities**

The Regional District's responsibilities will include the following:

- Provide overall guidance, direction and information when desired or requested.
- Manage relationships with relevant third parties.
- Provide information to the public about the food waste recycling program including accepted materials and sorting requirements.
- If PHTS is used for drop off:
  - Provide location for food waste drop off.
  - Notify Contractor when extra food waste servicing is required.
  - Waste screening of food waste delivered by customers to the PHTS by Regional District staff.
  - Provide instructional signage at the Transfer Station for customers.

### **2.3.3 Tipping Fees**

If the Food Waste is being drop-off at site outside the PHTS

- The Contractor will
  - set the tipping fees, subject to Regional District approval; and
  - collect the tipping fees.

If the Food Waste is being drop-off at the PHTS

- The Regional District will:
  - set the tipping fees, considering the proposal of the contractor; and
  - collect the tipping fees.

- Provide labour, supervision, materials and supplies to perform the services assigned to the Contractor in Section 3.3;
- Obtain and review all relevant documentation to perform the services;
- Provide quarterly reporting summarizing service provided and results; and
- Provide a primary point of contact for the Contract, and participate in regular communication with the Regional District's Solid Waste division during program initiation and implementation.

## **4. REQUIREMENTS**

In order for a proposal to be considered, a Proponent must clearly demonstrate that they meet the mandatory requirements set out in Section 7.1 (Mandatory Criteria) of the RFP.

This section includes "Response Guidelines" which are intended to assist Proponents in the development of their proposals in respect of the weighted criteria set out in Section 7.2 of the RFP. The Response Guidelines are not intended to be comprehensive. Proponents should use their own judgement in determining what information to provide to demonstrate that the Proponent meets or exceeds the Regional District's expectations.
