

PUBLIC NOTICE OF APPLICATION

The Sunshine Coast Regional District would like to inform the general public of their application to the Ministry of Environment and Climate Change Strategy to amend the existing Operational Certificate 106060 for the Sechelt Landfill.

The amendment is to relocate the contact water pond and modify the limit of waste at the Sechelt Landfill within the existing landfill site.

The proposed location is shown on the map below.

This amendment will increase contact water storage capacity and allow for optimization of the landfill footprint.
