

How to Read Your Mock Utility Bill

Use this guide to help you understand each section of the mock bill on the reverse

Turn the page over to see your mock bill based on your property's actual water consumption. The information on this side is for educational purposes only.

Jun 30, 2026	REGIONAL WTR RESIDENTIAL <=3/4" First 46 m ³ (A)				46.0000 CUBIC METRE	0.00
Jun 30, 2026	REGIONAL WTR RESIDENTIAL <=3/4" Consumption over 46 m ³ (A)				31.0000 CUBIC METRE	100.75

MOCK BILL TOTAL (DO NOT PAY):

263.25

If you see this message on your mock bill (on the other side of this page), it means your water meter has detected continuous flow for over 15 days within the last month. This is often a sign of a leak.

If you consumed less than or equal to 46 m³, you will only see a base charge.

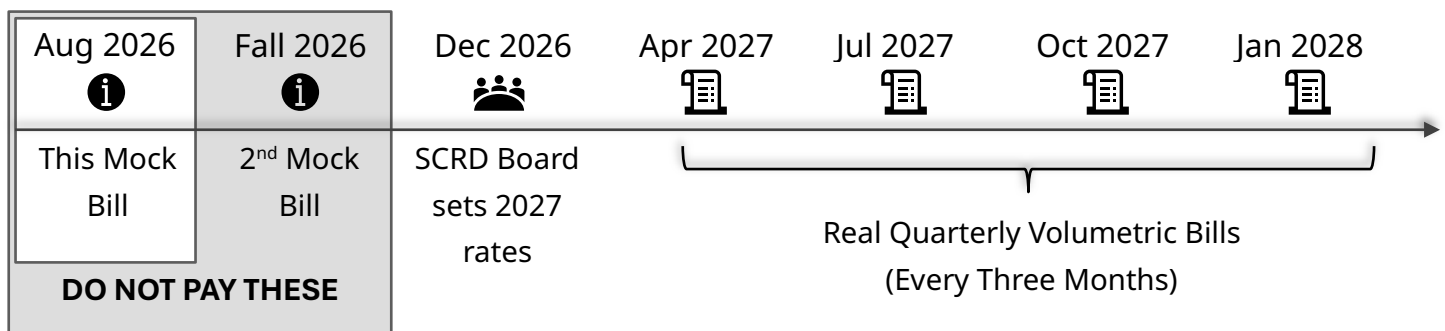

If you consumed more than 46 m³, you will also see a line for the first 46 m³ of water with a cost of \$0.00; this amount of water is included in the base charge.

Any additional consumption over 46 m³ will appear on its own line, calculated at the rate set for mock billing of \$3.25/m³.

1 cubic
metre (m³)
=
1000 litres

DO NOT PAY THIS MOCK BILL. Your property has already received a flat rate utility bill for the entirety of 2026. The amounts shown **on the reverse** represent what you *would* pay under the new volumetric rate structure based on your property's actual water consumption. See the timeline below for information about when you will receive your first 'real' volumetric bill.
